Leaders in Bringing IMRT/IGRT to the Physician Practice

Years of Trust.
Proven Results.
A Stable Partner.

Keeping up with technology and treatment modalities is essential for success in today's competitive health care climate.

AKSM/Oncology offers urologists the opportunity to be on the cutting-edge of patient care and treatment regimens, while maintaining complete clinical and financial control.

AKSM/Oncology brings IMRT/IGRT to your patients through physician-ownership models, including single-practice centers, while maximizing return on investment.

“We've worked with AKSM for years. AKSM has a proven track record and is a trusted physician partner. Their history, expertise and stability separate them from the pack. It's why AKSM is our partner in IMRT.”

—Rashmi I. Patel, MD

Experience and Advantage

AKSM/Oncology has created multiple physician-owned IMRT/IGRT centers and is well-positioned to continue expanding this leadership role. Physicians have expressed their enthusiasm and approval of the AKSM/Oncology development and management model.

By partnering with AKSM/Oncology, urologists can:

- Maintain clinical control of prostate cancer patient treatment
- Assure the continuity of patient care
- Offer the best technology available
- Assure the highest level of quality
- Realize superior return on investment

AKSM/Oncology allows urologists to manage the uncertainties of today's health care environment – and prosper.

AKSM/Oncology is a subsidiary of American Kidney Stone Management, Ltd. (AKSM). AKSM has a proven track record of success when it comes to physician-owned ventures. Operating in 38 states, AKSM is the standard by which physician-owned and operated companies are measured.

Start Up Services

AKSM/Oncology provides “speed to market” when developing your radiation therapy center. This turn-key approach is proven successful through AKSM/Oncology's trusted project management and compressed development timeline.

In coordination with your practice, AKSM/Oncology will:

- Navigate and assure compliance with legal issues such as Stark and the Anti-Kickback Statute
- Specify and negotiate all equipment purchases to assure you get equipment you want, and need, at the right price
- Formulate the correct staffing model and provide staff training to assure efficiency and proper patient outcomes
- Provide complete physics and dosimetry services
- Manage licensure and accreditation process
- Oversee the facility / vault design and construction

Radiation Therapy Center Management Services

AKSM/Oncology provides complete management services for your new radiation therapy center. AKSM/Oncology managers have the experience and knowledge to save the practice time and money while providing quality care growth strategies as the patient load increases.

AKSM/Oncology will:

- Engage experienced lead therapists to manage volume, capacity and quality
- Provide the right personnel with management skills and experience
- Ensure maximum departmental efficiencies and results, including clinical outcomes
- Provide linkage to the expertise of the AKSM/Oncology network
- Help your practice stay current with the latest industry trends and best practices
- Deliver detailed financial reports on a regular basis

What's Next?

AKSM/Oncology can have your new radiation therapy center up and running and treating patients in as little as 6-8 months. IMRT/IGRT offers a unique opportunity for urologists to improve patient care while gaining control of treatment regimens and options previously available only to hospitals.

By offering IMRT/IGRT your practice can offer the full continuum of care your patients deserve and expect. AKSM/Oncology has the proven success and ability to bring your practice into the future.

“AKSM / Oncology enhances our ability to maintain clinical oversight for our patients. This continuum of care is very important for providing the highest level of care for our patients.”

—Michael A. Wodarczyk, MD
